PACKAGE OPTIONS

These packages vary in price, as well as the level of experience that your client will receive. There are options for different kinds of eaters, from simple 'meat & potatoes' to elegant caviar and oyster service.

\$650

This is our most elite package. The meal will consist of five courses, including a decadent dessert. Premier ingredients will be used such as Idaho caviar, local Wagyu beef, and creme brûlée. Fine-tuned French technique will be used in these preparations, and will be presented most elegantly.

\$500

This is our most popular meal package. The experience will consist of four courses. The ingredients used will be all locally sourced, from Idaho's finest farms and artisans. Menu may include items such as a hand crafted pasta, local lamb or pork, and huckleberry cheesecake.

\$350

For the simple eaters, and there is nothing wrong with that. This package will be for the folks that prefer not to eat adventurously, and stick with what they know. This meal will consist of three courses. The menu will include items such as a farmer's market salad, a delectable meat course, and a light dessert.

The price of these vouchers includes the food cost, which is currently very high. This service provides a unique experience for your client to make them feel special. We source only the finest ingredients available, all locally grown and prepared.

The voucher is designed for the purpose of a dinner for two, to be enjoyed within the clients home for their convenience. If the client has a family, or intends to book their experience for more than two people, we can accommodate and adjust price and menus accordingly.
